**Ornamental bed weed control:** This is an ongoing challenge all through the year, especially in the areas that have freshly turned soil. To keep the weeds at bay, we will be diligent to spray and pull weeds as we encounter them.

**Reoccurring Maintenance:** Fertilization and Pest/Weed control. (Sarasota County ordinance prohibits us from applying nitrogenous fertilizer between June 1 and September 30). At different times during the application period we incorporate pre-emergent weed control, and insect control with the turf fertilizer. Other control measures for weeds and pests take place throughout the year. This is a performance-based program, and if the severity of the particular problem calls for additional applications, we will reapply treatments as necessary.

**The Detail Crews:** Please be advised the Detail Crew is not permitted to be doing any special or extra pruning, or removing of any plants or shrubs that are separate from the standard pruning schedule. Please submit a landscape request form if you seek service in addition to the regular schedule.

Happy Holidays!!
