

[The Isles website](#)

[Blue Stream Fiber website](#)

Dear Resident,

Blue Stream has completed the installation of the new fiber network. They are now in the process of testing the new fiber infrastructure.

Registration with Blue Stream will take place April 24-28 and May 1-5. Onsite registration will have limited availability and will be filled on a first come first serve basis. An email with directions on how to register for an onsite appointment with Blue Stream is tentatively scheduled to be emailed to owners by April 21.

Residents will also have the choice to register with Blue Stream over the phone. A separate email will be sent with instructions on how to register by phone. It is important to note there is no deadline to register with Blue Stream.

The current contract with Xfinity will expire on June 28, 2023. This date is important as the residents cost to maintain Xfinity TV will likely increase after June 28. Each resident will need to check with Xfinity on pricing if they intend to continue with their service.

All residents are encouraged to visit the Blue Stream page on The Isles website for additional information on this project, [THE ISLES on Palmer Ranch \(islesofsarasota.com\)](#).

Please email Joshua Jones with any questions you may have about Blue Stream and this project.

Respectfully,

The Isles Management Team
