

Dear Isles of Sarasota Residents,

Blue Stream Fiber is thrilled to announce a partnership with your community effective June 28, 2023. We have worked hand in hand with your Board of Directors to be able to provide you with a new state of the art fiber optic network, industry leading products and substantially better reliability and customer service than your current provider.

At Blue Stream Fiber, we pride ourselves on our legacy of over 40 years of great customer service and our deep experience building the latest fiber optic networks. With this new agreement in place, Isles of Sarasota will enjoy advanced products and services, and support from a customer service team with industry-leading ratings.

The new package as part of your HOA will include Digital Core and Plus TiVo IPTV, 100 hours of cloud DVR, and Internet with speeds up to 500 X 500 Mbps. Additionally, you'll have the opportunity to upgrade to a variety of other offerings, such as additional premium cable channel options, faster Internet speeds, and landline telephone service, among other things.

Our team has begun the initial construction phase. Once construction has been completed, we will begin home installations. As different stages approach we will be sending out communications to keep you updated on our progress, along with information on how to schedule your installation. We will also conduct townhall meetings in the coming months to provide additional information and answer questions that you may have.

Thank you for entrusting Blue Stream Fiber with your TV and Internet needs. We are proud to serve you and look forward to providing you with more information throughout the coming year.

Blue Stream Fiber
